## Summary

I am a dedicated Software Developer with 2 years of hands-on experience. I am currently in my final year of a Bachelor's in Computer Science at Jamhuriya University of Science & Technology. My expertise spans both front-end and back-end development, allowing me to create seamless, high-performance applications that prioritize user experience.
On the front end, I specialize in crafting intuitive, responsive interfaces.
On the back end, I focus on building efficient APIs, managing complex databases, and implementing robust security protocols to safeguard sensitive data. I am committed to delivering well-architected, scalable solutions that address real-world challenges.

## Skills

**FrontEnd**
HTML, CSS, JavaScript, ReactJS, TailwindCSS

**Programming Languages**
JavaScript, TypeScript, Python

**Tools**
Git, GitHub, Terminal, Postman

**Backend**
Node.js, Express.js, MongoDB, PostgreSQL, MySQL, Prisma

**Frameworks and Libraries**
Next.js, React.js, Vite, MERN Stack

## Professional Experience

**Software Developer, Jamhuriya University Technology Students Association** 🔗
I collaborated with a team to develop a web application that streamlines administrative tasks for the university's faculty and staff. I contributed to system architecture, focusing on usability and scalability, while utilizing **JavaScript, Node.js, and React** to enhance the platform's performance. I played a key role in problem-solving, testing, and ensuring the delivery of a high-quality, bug-free product.

## Education

**Bachelor of Science in Computer Science,**
**Jamhuriya University of Science and Technology**

- Focused on software development, mobile app development, and AI.
- Skilled in **Python**, **Java**, **JavaScript**, **TypeScript**, **Node.js**, **Express**, and **React**.
- Developed the **JUTSA Management System** for university administration as part of academic projects.
- Gaining practical experience in **problem-solving**, **collaboration**, and **research**.
